Butterfly pendant is an example of the technique piercing

This 8-week class will emphasize the use of basic jewelry techniques and design i.e., bending, sawing, filing, sanding, piercing, polishing and soldering. Students will create their own designs to make earrings, pendants and bracelets! There will be an introduction to the torch toward the end of the session. This class is for beginning students no experience necessary. All tools and supplies needed for course projects are included in the \$30 lab fee. PAYABLE WITH REGISTRATION.
